PACT / DEMO SAMPLE / VERSION 1

Apartment deposit agreement

Fictional document for a hackathon demonstration. This is not a signed rental contract or a regulated escrow arrangement.

Landlord / owner	Maya Petrova - demo identity
Tenant / renter	Luca Martin - demo identity
Location	Fictional unit DEMO-18, Budapest
Rental dates	1-17 October 2026
Refundable deposit	EUR 1,000
Included	Both keys and the apartment inventory

1. Agreement and condition

The landlord creates the terms and attaches this contract. The tenant accepts the agreement version. The landlord then publishes photographs and a starting-condition checklist. The tenant reviews and acknowledges that exact condition version before funding the full simulated deposit.

2. Return and deposit review

Return the listed property in the acknowledged condition. The first photographed return declaration starts a 48-hour review using the demo device clock. The landlord can approve a full refund or propose a reasoned deduction. A split requires the tenant's explicit approval of the current proposal.

3. Demonstration limits

All funding, balances, allocations and refunds are simulated. No real money is held or transferred, no live Wise integration is connected, and automatic refunds are not implemented in this demo. Condition records and uploaded PDFs remain in this browser.

Sample only. Replace this PDF when entering different contract terms. Acceptance in the role-switching demo is not identity verification or a legal signature.
